

Compact Fuel Dispensing Unit

Designed for use with mobile fuel storage units

- Voltage: 220V / 50HZ
- LFYP-50 Vane Pump:-
 - Speed: 630 rpm
 - Flow rate: 45 ltrs to 65 ltrs/min
 - Working pressure: 0.16 to 0.25MPa
- LFM 65 Flow metre:-
 - Discharge rate per revolution: 0.5 ltrs
 - Flow rate range: 5 ltrs to 90 ltrs
 - Accuracy: $\pm 0.2\%$
- Hose length to be specified.
- Single or double light weight aluminium nozzles. Either 3/4" or 1" on offer.
- Secure single sided LCD display.
- Electrical totalizer.
- Explosion proof unit, ExdIIAT3 Rated.
- Optional retractable hose reel, length to be specified.
- External dimensions: 510 x 440 x 1540.
- External baked finish.
